Shoe Snippets

Fun facts about the historic Cummings Center site, formerly known as "The Shoe"

During its operation from 1905 to 1987, The Shoe was Beverly's largest business. The smokestack was an identifying feature of the compound, due to its bold lettering and central location. After a few years of disuse, the mortar deteriorated, and the smokestack became structurally unsound. As a result, it needed to be removed. During the construction of Cummings Center, Bill Cummings' wife, Joyce, had the bittersweet and distinct honor of pressing the button that demolished the smokestack.
